

B - SERIES

Heavy duty moulded-to-cable oval connector, polarized to ensure phase integrity. Applications include power for conveyors, electro-magnets, generators, motors, pumps, strapping machines, and welding equipment.

Product Specifications

Mechanical: A heavy duty, polarized, moulded-to-cable oval connector. Available in various lengths and sizes of neoprene jacketed cable with or without safety chains.

Electrical: 2, 3, and 4 contact configurations accept wire sizes from #14 AWG to #2 AWG.

Amperage Rating: 12 Amps to 95 Amps.

Series Voltage Rating: 600 VAC.

CSA rated and approved

Options include: Special branched, multi-contact configurations.

Safety Chain: Securely moulded to the cable behind the male and female plugs will help prevent accidental disconnects. The chain with snap is attached to the male end, this fastens to a metal eyelet that is attached behind the female plug.

Custom: Total to partial custom solutions are available for all connectors and configurations. We will mould special connectors to your specifications and aid in the connector design process. Jumpers and extra long tails are also recommended and available.
